

# PFINDER UVLuxCHECK

## DUAL UV AND WHITE LIGHT METER

Version 12 | 16.12.2021 | Page 1/1

### DESCRIPTION

The PFINDER UVLuxCHECK is a dual UV and white light meter, designed to offer the user the most accurate results. It is housed in an extremely robust and high quality case. The backlit LCD colour display ensures an easy reading of the measurements. PFINDER UVLuxCHECK provides a truly unique system design, because only the sensor head stores the calibration data. Therefore only the sensor head needs to be sent for calibration, offering a unique interchangeability. With a second sensor head (available optionally), operators don't need to be without a working meter during calibration times anymore. The standard operation allows more than 10 hrs. continuous use with one set of batteries.

### YOUR HANDLING + COST SAVING BENEFITS

- | Dual sensor head for white light and UV measurement
- | Compact, ergonomically and extreme robust design
- | Multi lingual menu navigation such as: German, English, Spanish, French

### APPROVALS & CONFORMITIES

The product conforms to these specifications / is suitable for the use according to:

CE-Conform

EN ISO 9934-1 | DIN EN ISO 3452-1 |  
DIN EN ISO 3059
